

KB190841776: Hotfix 201701006 for i-cut Layout 16.0

Summary

The i-cut Layout exported production CUT files might have double cut contours. This can happen when the export dialog shows multiple inks with the same name in the list.

Release date

Wednesday, Mar 28, 2017

Symptoms

No warning or any error message. Two passes required on the cutting machine.

System requirements

The standard system requirements for this product apply (for details, see the product pages on www.esko.com).

Dependencies

Makes hotfix 201701004 and 201701003 obsolete.

Installation Instructions

Close i-cut Layout 16.0 before installing this hotfix and double click the hotfix installer on each i-cut Layout station.

Downloads

To download the hotfix, go to <https://mysoftware.esko.com/Hotfixes/Details/201701006/16.0>

What is a Hotfix?

A Hotfix is a software package that you can install on an existing installation of our software. Each hotfix contains fixes for one or more known issues in our released software.

Because there is always a small chance for a hotfix to cause new issues, you should only install Recommended Hotfixes, unless otherwise instructed by your Esko Software Support team.
