

KB174664779: Curve Pilot - Couldn't connect to bg_data_dgc on the Automation Engine Server

Summary

Curve Pilot couldn't connect to **bg_data_dgc** on the Automation Engine Server.

Symptoms

When opening Curve Pilot it is looking at the local **bg_data_dgc** share.

Solution

If the **bg_data_dgc** share from the Automation Engine Server is a mapped drive, remove the mapped drive and make sure that the **BG_Server** environment variable is setup properly.

For more information on how to setup the **BG_Server** environment variable see the KB below:

- [KB76719617: Automation Engine - How to set up the BG_SERVER variable](#)
