

Color Pilot 18.1 System Requirements

The following are the minimum system requirements for Color Pilot 18.1. Exceeding these requirements will in most cases lead to a performance increase. Running Color Pilot on a system that does not meet these requirements is not supported.

Minimum requirements

Minimum System Requirements for Color Pilot 18.1																																				
Processor type and speed	x86 (32-bit) or x64 (64-bit) compatible processor (Intel or AMD), minimum dual-core.																																			
RAM	Minimum 8GB RAM.  For more information about memory limitations in Windows operating systems, please consult this table .																																			
Available hard drive space	An NTFS volume is required. The software takes maximum 1 GB of disk space. But take into account the need for storage of temporary and production data. A backup solution is strongly advised.																																			
Network	10/100/1000 Base-T Ethernet, TCP/IP v4 protocol, TCP/IP v6 protocol is not supported.  In order to use the PantoneLIVE cloud subscription service, an internet connection and a PantoneLIVE account are required.																																			
Graphics card and video drivers	Minimum 1280 x 1024 resolution, true color depth.																																			
Virtualization	Not supported.																																			
Supported Spectrophotometers	The following spectrophotometers are supported via a USB port: <ul style="list-style-type: none"> • Barbieri Spectro Swing (no support for spot measurements!) • X-Rite Eye-One IO (generation 1 and 2) • X-Rite Eye-One Pro (generation 1 and 2) • X-Rite eXact: <ul style="list-style-type: none"> • Bluetooth connection not supported! • An aperture of 2 mm is recommended for accurate measurements Supported measurement conditions: <table border="1" data-bbox="292 1304 834 1562"> <thead> <tr> <th></th> <th>M0</th> <th>M1</th> <th>M2</th> <th>M3</th> </tr> </thead> <tbody> <tr> <td>i1Pro 1 / i1iO 1st generation (non UV)</td> <td>v</td> <td>-</td> <td>-</td> <td>-</td> </tr> <tr> <td>i1Pro 1 / i1iO 1st generation (UV)</td> <td>-</td> <td>-</td> <td>v</td> <td>-</td> </tr> <tr> <td>i1Pro 2 / i1iO 2nd generation (*)</td> <td>v</td> <td>v</td> <td>v</td> <td>-</td> </tr> <tr> <td>eXact – spot mode (**)</td> <td>v</td> <td>v</td> <td>v</td> <td>v</td> </tr> <tr> <td>eXact – scan mode (**)</td> <td>v</td> <td>v</td> <td>v</td> <td>v</td> </tr> <tr> <td>Barbieri Spectro Swing</td> <td>v</td> <td>-</td> <td>-</td> <td>-</td> </tr> </tbody> </table>  (*) i1iO firmware 1.0.8 required! (**) USB connection only, Bluetooth not supported!
