

# Additional Tools for Imaging Engine 18.1 Powered by Adobe® System Requirements

The following are the minimum system requirements for additional tools for Imaging Engine 18.1 Powered by Adobe®. Exceeding these requirements will in most cases lead to a performance increase. Running these tools on a system that does not meet these requirements is not supported.

These additional tools for Imaging Engine 18.1 Powered by Adobe® are:

- Curve Pilot (which can include PressSync Pilot and/or Print Control Wizard)
- HDFlexo Screens
- Screen Manager
- Bitmap Viewer (32-bit or 64-bit)

## Minimum requirements

Minimum System Requirements for the additional tools Imaging Engine 18.1 Powered by Adobe®	
Processor type and speed	Only 64-bit compatible processor (Intel or AMD) - minimal dual-core, recommended dual quad-core.
RAM	4GB RAM.  <div style="border: 1px solid #ccc; padding: 5px; background-color: #fff9c4;">  For more info about memory limitations in Windows operating systems, please consult <a href="#">this table</a>.                 </div>
Hard disk	An NTFS volume is required. The software takes about 20 GB of disk space. Also take into account the need for storage of temporary and production data. A backup solution is strongly advised.
Network	10/100/1000 Base-T Ethernet, TCP/IP v4 protocol, TCP/IP v6 protocol is not supported.
Graphics and video	Minimum 1280 x 1024 resolution, true color depth.
File servers	All Esko applications running on Windows OS can use data that is available on network shares. These shares need to be on Windows file servers. We recommend to use Windows Server 2008 R2, Windows Server 2012 or Windows Server 2012 R2, Windows Server 2016 or Windows Server 2019 as file server.
Virtualization	<ul style="list-style-type: none"> <li>• VMware ESX version</li> <li>• Microsoft Hyper-V</li> </ul> <p>Hardware connections, including dongles, proofers, spectrophotometers and others may work, but are not supported. Customers should verify hardware support through their virtualization support channels.</p>

System Requirements

## Supported Operating Systems

Recommended operating systems are highlighted in green in the tables below.

If an operating system is not listed in the tables below, it is not supported. Do not try to install Additional Tools for Imaging Engine Powered by Adobe® on a computer running an unsupported operating system.

### Windows Server 2019

Edition	64-bit
Windows Server 2019 Standard	✓
Windows Server 2019 Datacenter	✓
Windows Server 2019 Essentials	✗

### Windows Server 2016

Edition	64-bit
Windows Server 2016 Standard	✓
Windows Server 2016 Datacenter	✓
Windows Server 2016 Essentials	✗
Windows Storage Server 2016	✗

### Windows Server 2012 R2

Edition	64-bit
Windows Server 2012 R2 Standard	✓
Windows Server 2012 R2 Datacenter	✓

### Windows Server 2012

Edition	64-bit
Windows Server 2012 Standard	✓
Windows Server 2012 Datacenter	✓

### Windows Server 2008 R2

Edition	64-bit	
		SP1
Windows Server 2008 R2 Standard	✗	✓ (*)
Windows Server 2008 R2 Enterprise	✗	✓ (*)
Windows Server 2008 R2 Datacenter	✗	✓ (*)

(\*)

Windows Server 2008 R2 (all editions) is no longer supported for new installations as of Imagine Engine 18.0.1

Upgrading an existing Imagine Engine Server to Imagine Engine 18.1 is still possible on Windows Server 2008 R2, but this will become unsupported soon as well.

### Windows 10 (KB170993458: Which versions of Windows 10 are supported?)

Edition	64-bit
Windows 10 Home	✗
Windows 10 Pro	✓
Windows 10 Enterprise	✓

### Windows 8.1

Edition	64-bit
Windows 8.1	✗
