

# Automation Engine 12.2 System Requirements - Client

The following are the minimum system requirements for Automation Engine 12.2 Pilot. Exceeding these requirements will in most cases lead to a performance increase. Running Automation Engine 12.2 on a system that does not meet these requirements is not supported.

## Minimum requirements

### Automation Engine Pilot 12.2 (Mac)

Minimum System Requirements for Automation Engine 12.2 Pilot (Mac)	
Processor type and speed	64-bit Intel processor   PowerPC processors are no longer supported.
RAM	1 GB.
Hard disk	The installation of the Pilot takes up about 1 GB of disk space.
Network	10/100/1000 Base-T Ethernet, TCP/IP v4 protocol. TCP/IP v6 is not supported.
Graphics and video	Minimum 1280 x 1024 screen resolution, true color depth.
DVD drive required	No.
Browsers	Safari (with the exception of Safari on Mac OS X 10.5.8), Chrome or Firefox.
Java	Java 6 Standard Edition.

## Supported Operating Systems

 Recommended operating systems are highlighted in green in the tables below.

 If an operating system is not listed in the tables below, it is not supported. Do not try to install Automation Engine Pilot on a computer running an unsupported operating system.

### Mac OS

Edition	Client OS
10.9 (Mavericks)	
10.8 (Mountain Lion)	
10.7.0 - 10.7.4 (Lion)	
10.6.0 - 10.6.8 (Snow Leopard)	
10.5.0 - 10.5.8 (Leopard)	
10.4.0 - 10.4.11 (Tiger)	
10.3.x	
10.2.x	
10.1.x	

System Requirements	
Applies to	Automation Engine Client
Version	12.2
Last revised	09-Jun-2014

The server versions of these operating systems are not supported.

## Automation Engine Pilot 12.2 (Windows)

Minimum System Requirements for Automation Engine 12.2 Pilot (Windows)	
Processor type and speed	x86 (32-bit) or x64 (64-bit) compatible dual-core processor (Intel or AMD), minimum dual-core.
RAM	1 GB.  <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;">  For more information about memory limitations in Windows operating systems, please consult <a href="#">this table</a>.         </div>
Hard disk	The installation of the Pilot takes up about 1 GB of disk space. An NTFS volume is required.
Network	10/100/1000 Base-T Ethernet, TCP/IP v4 protocol. TCP/IP v6 is not supported.
Graphics and video	Minimum 1280 x 1024 screen resolution, true color depth.
DVD drive required	No.
Virtualization	Parallels Desktop or Vmware Fusion is supported, but please be aware that Esko does not test all combinations of Mac OS X and Parallels Desktop/Vmware Fusion.
Browsers	Internet Explorer (8.0 or later required), Chrome, Firefox or Safari.
Java	Java 7 Standard Edition.

## Supported operating systems

Recommended operating systems are highlighted in the tables below.

If an operating system is not listed in the tables below, it is not supported. Do not try to install Automation Engine Pilot on a computer running an unsupported operating system.

### Windows Server 2012

Edition	64-bit
Windows Server 2012 Standard	✔
Windows Server 2012 Datacenter	✔
Windows Server 2012 Essentials	✘
Windows Server 2012 Foundation	✘
Windows Storage Server 2012 Workgroup	✘
Windows Storage Server 2012 Standard	✘

Windows Server 2012 R2 is not supported.

The Windows Server 2012 32-bit Editions are **not** supported.

### Windows Server 2008 R2

Edition	64-bit	
		SP1
Windows Server 2008 R2 Standard	✓	✓
Windows Server 2008 R2 Enterprise	✓	✓
Windows Server 2008 R2 Datacenter	✓	✓
Windows Small Business Server 2008	✗	✗
Windows Server 2008 R2 Foundation	✗	✗
Windows Web Server 2008 R2	✗	✗
Windows Server 2008 R2 HPC Edition	✗	✗

The Windows Server 2008 R2 32-bit Editions are **not** supported.

### Windows Server 2008

Edition	32-bit		64-bit	
		SP1		SP1
Windows Server 2008 Standard	✓	✓	✓	✓
Windows Server 2008 Enterprise	✓	✓	✓	✓
Windows Server 2008 Datacenter	✓	✓	✓	✓
Windows Small Business Server 2008	✗	✗	✗	✗
