

# KB315430563: HOTFIX 202011009 for Automation Engine 20.1

## Summary

The Pilot - Files View may not show a proper file type for files that get overwritten.

## Symptoms

Files on a job folder that are edited (and saved back, overwriting the original) in PackEdge f.i., may not be recognized afterwards as normalized PDF files anymore in the Files View in the Pilot.

## More Information

For installation instructions and to download the hotfix, go to <https://mysoftware.esko.com/Hotfixes/Details/202011009/20.1>.

### What is a Hotfix?

A Hotfix is a software package that you can install on an existing installation of our software. Each hotfix contains fixes for one or more known issues in our released software.

Because there is always a small chance for a hotfix to cause new issues, you should only install Recommended Hotfixes, unless otherwise instructed by your Esko Software Support team.
